Date: Wednesday, July 17, 2019 4:12:00 PM

Hi Matt,

EPA is reviewing your client's proposed revisions to the PH ASAOC and SOW and plans to provide our redline responses early next week.

In order to keep things moving forward, we would like to schedule a call to discuss the proposed revisions for next Thursday, July 25th from 9:30-11 or Monday, July 29th from 9:30-2 pacific. If those days/times don't work for Arkema and Bayer, please let us know

Thanks,
Stephanie

Subject: RE: Portland Harbor Superfund Site - River Mile 7W Remedial Design

Hi Stephanie,

I've attached Legacy Site Services LLC's (agent for Arkema Inc.) proposed revisions to the amended model ASAOC and amended model SOW, which relates specifically to that portion of the River Mile 7 West Project Area for which Arkema would perform RD. I understand that Bayer CropScience, with whom we are continuing to coordinate on the proposed RD work for the River Mile 7 West Project Area, is still reviewing the amended model ASAOC (including our proposed revisions) and amended model SOW for its portion of the River Mile 7 West Project Area and will be providing you with any further revisions separately. Bayer CropScience's outside counsel is copied on this email.

I have also attached proposed disbursement terms. In creating these, I took the model disbursement

terms previously provided by Dean (which were taken from the EPA's model RD/RA consent decree) and worked to align them with the provisions set forth in the City/State Settlement Agreement for Funding Remedial Design.

Please let me know if you have any questions or comments concerning any of these documents. As you will see, there are several technical issues pertaining to the statement of work that we would like to discuss with EPA and DEQ. Given the fact that my clients are located on the east coast, it would be best if we could have that discussion by conference call. If you could provide several dates and times that your team could be available, I will set up a call.

Thanks,
Matt

Thanks Matt.

We appreciate this group's offer to perform Remedial Design at River Mile 7W. However, for EPA to fully evaluate your offer, we need to receive any project area-specific revisions you are proposing to the Portland Harbor model ASAO and SOW by Friday, July 12th. Please email me any proposed revisions by that date.

Best,
Stephanie

Ms. Fleming,

Please see the attached letter concerning remedial design for River Mile 7W at the Portland Harbor Superfund Site. If you have any questions, please feel free to contact me.

Regards,
Matt
